### • Who can be interested in this product?

All sectors of activity.

### • What are the arguments for selling this product

- Product 100% biodegradable (NF 14995 certified) and 100% bio-based transparent hard case.
- Product handled on stock

### • How long last the process to degrade?

The process to degrade depends essentially on the environment in which it is found. Thus, according to the standard obtained (EN14995), a decomposition was observed in less than 12 weeks, in an industrial compost, with a temperature between 60 ad 80°.

The test carried out when this standard was obtained demonstrate an absence of ecotoxicity.
