STAR SM-L200

New generation Classic Bluetooth / BLE 58mm mobile **Receipt / Label** printer for fast, low cost, effortless connection to Apple iOS, Android, Linux & Windows mobile devices

The exciting new SM-L200 has been designed specifically for the fast growing mPOS market.

If you are not familiar with the term mPOS, this applies to any retailer / restaurateur or other user that would prefer to use a mobile tablet or smartphone instead of the usual terminal for POS transactions.

This mobile solution is designed to be simple & just literally connects without the need for traditional pairing. It is therefore perfect for environments where security is not an issue or mobile printers are shared. The easy-to-use "Drop-In & Print" paper loading, whether on the counter or on your belt, along with the long lasting battery life of 13 hours all leads to effective mobile POS transactions.

2"/ 58mm Bluetooth / BLE Mobile Receipt / Label Printer
